Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

GENERAL MOTORS COMPANY (Registrant)

By: /s/ CHRISTOPHER T. HATTO

Date: October 29, 2019 Christopher T. Hatto, Vice President, Controller and Chief Accounting Officer

GM Reports Income of \$2.3 Billion and EBIT-adjusted of \$3.0 Billion

- EPS-diluted of \$1.60 and EPS-diluted-adjusted of \$1.72.
- Net strike impact to GMNA EBIT-adjusted was \$(1.0) billion, including \$0.3 billion of favorable timing items.
- Strong GMNA EBIT-adjusted margin of 10.8 percent, driven by full-size trucks, record crossover sales and cost savings.

2019 RESULT	Net Revenue	Income	Auto Operating Cash Flow	EPS-Diluted
GAAP	\$ 35.5B	\$2.3B	\$5.0B	\$1.60
vs. Q3 2018	(0.9%)	(8.7%)	+\$2.5 B	(8.6%)
	EBIT-adj. Margin	EBIT-adj.	Adj. Auto FCF	EPS-Diluted-adj.
Non-GAAP	8.4%	\$3.0B	\$3.8B	\$1.72
vs. Q3 2018	(0.4) pts	(5.9%)	+\$3.4B	(8.0%)

Our new labor agreement maintains our competitiveness, preserves our operating flexibility and allows us to continue improving our quality and productivity. We remain focused on strengthening our core business and leading in the future of personal mobility."

- Mary Barra, Chairman and CEO

FULL-SIZE PICKUP TRUCK MOMENTUM

GM's industry-leading full-size pickups continued to build sales momentum in the quarter, with the launch of light-duty (LD) diesels and more heavy-duty (HD) variants. Since January, GM's full-size LD and HD pickups have gained more than 8 percentage points of retail market share in the segment through September.*

Sales of the Chevrolet Silverado and GMC Sierra LD models were up 18 and 38 percent year over year respectively, and have gained retail market share sequentially each month this quarter.* Early production of HD models was focused on crew cabs, and those deliveries were up 19 percent. Overall pricing of GM's all-new pickups remained strong, up about \$2,200 year to date versus 2018.*

*Based on JD Power PIN data

2020 GMC Sierra 2500HD AT4

STRIKE IMPACT

The work stoppage in the U.S. negatively affected North American business results in the third quarter and expected results for the year. In the third quarter, about two weeks of vehicle production was lost.

The net strike impact to the third quarter GMNA EBITadjusted was \$(1.0) billion including \$0.3 billion of favorable timing items, or \$(0.52) per diluted share. We expect the 2019 calendar-year impact of the strike to be approximately \$(2.00) per diluted-share.

FULL-YEAR GUIDANCE UPDATE

GM expects full-year capital expenditures to be lower than originally projected, approximately \$7.5 billion, due to actions taken to accelerate the achievement of its Capex target. Given this, and the impact of the strike, GM has revised its full-year outlook:

EPS-diluted	\$4.28 to \$4.69
EPS-diluted-adjusted	\$4.50 to \$4.80
Auto Operating Cash Flow	\$5.5B to \$7.5B
Adjusted Auto Free Cash Flow	\$0B to \$1B

Our underlying third-quarter performance demonstrates the ongoing resilience and earnings power of our company, building on our leading truck and crossover franchises, and transformational cost actions. Our focus going forward will continue to be the disciplined execution of our business plan."

– Dhivya Suryadevara, CFO

Q3 U.S. SALES HIGHLIGHTS

Dealerships delivered nearly 739,000 vehicles in the third quarter of 2019, an increase of 6 percent year over year. Results were led by GM's all-new full-size pickups and the company's fresh lineup of crossovers.

Deliveries increased for all brands, and crossover sales were the best-ever for any quarter, growing 29 percent.

Chevrolet crossover sales increased 35 percent, led by Traverse and Trax, which set quarterly records. Buick crossover sales were up 17 percent, led by Envision and Encore, which were up 39 percent and 18 percent, respectively. GMC sales increased 11 percent, led by the Acadia, which was up 51 percent. Cadillac crossover deliveries rose 67 percent, led by the segment-leading XT4 and the all-new XT6.

To build on the momentum of GM's industry leading truck franchise, the company's next-generation full-size SUVs, which dominate the segment, will arrive in dealerships in 2020.

2020 Chevrolet Silverado Diesel

CHINA PERFORMANCE

Year-over-year industry vehicle sales declined nearly 11 percent in the quarter and GM China underperformed relative to the industry, due to segment shifts and lower demand for outgoing models. Despite continued softening of the overall vehicle market, Cadillac third-quarter sales increased 11 percent, driven by the XT4 and XT5. With XT6 joining the lineup, Cadillac will strengthen its foothold in the steadily growing luxury SUV segment.

2020 Cadillac XT6

COST ACTIONS

GM has achieved \$2.4 billion in transformation cost savings since 2018, and is on track to realize its 2019 target. As a result of the company's decision to invest in its Detroit-Hamtramck plant with plans to build an all-electric pickup truck, GM will incur operating costs outside of the scope of its original transformation plan. With this, GM is revising its year-end 2020 cost savings target to \$4.0 to \$4.5 billion.

CASH FLOW AND LIQUIDITY

GM's adjusted automotive free cash flow in the quarter was \$3.8 billion, up significantly year over year primarily due to the timing of working capital flows, lower capital expenditures and the receipt of a portion of the dividend from our China JVs. Total liquidity stood at \$37.2 billion, up \$3.4 billion versus year-end 2018, and up \$3.2 billion compared to the second quarter of 2019.

GENERAL MOTORS

General Motors (NYSE:GM) is a global company committed to delivering safer, better and more sustainable ways for people to get around. General Motors, its subsidiaries and its joint venture entities sell vehicles under the Chevrolet, Buick, GMC, Cadillac, Holden, Baojun and Wuling brands. More information on the company and its subsidiaries, including OnStar, a global leader in vehicle safety and security services, Maven, its personal mobility brand and Cruise, its autonomous vehicle ride-sharing company, can be found at http://www.gm.com.

Cautionary Note on Forward-Looking Statements: This press release may include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We caution readers not to place undue reliance on forward-looking statements. Statements including words such as "anticipate," "appears," "approximately," "believe," "continue," "could," "designed," "effect," "estimate," "evaluate," "expect," "forecast," "goal," "initiative," "intend," "may," "objective," "outlook," "plan," "potential," "priorities," "project," "pursue," "seek," "should," "target," "when," "will," "would," or the negative of any of those words or similar expressions to identify forward-looking statements represent our current judgment about possible future events. In making these statements we rely upon assumptions and analysis based on our experience and perception of historical trends, current conditions and expected future developments, as well as other factors we consider appropriate under the circumstances. These statements are not guarantees of future performance; they involve risks and uncertainties and actual events or results may differ materially from these statements. Factors that might cause such differences include, but are not limited to, a variety of economic, competitive and regulatory factors, many of which are beyond our control and are described in our Annual Report on Form 10-K for the year ended December 31, 2018, as well as additional factors we may describe from time to time in other filings with the U.S. Securities and Exchange Commission. We undertake no obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, future events or other factors that affect the subject of these statements, except where we are expressly required to do so by law.

Basis of Presentation: The financial and operational information included in this press release relate to our continuing operations and not our discontinued operations, which consist of the Opel and Vauxhall businesses and certain other assets in Europe and the European financing subsidiaries and branches that were sold in 2017.

(Unaudited)

Unless otherwise indicated, General Motors Company's (GM) non-GAAP measures are related to our continuing operations and not our discontinued operations. GM's non-GAAP measures include: earnings before interest and taxes (EBIT)-adjusted, presented net of noncontrolling interests; earnings before income taxes (EBT)-adjusted for our General Motors Financial Company, Inc. (GM Financial) segment; earnings per share (EPS)-diluted-adjusted; effective tax rate-adjusted (ETR-adjusted); return on invested capital-adjusted (ROIC-adjusted) and adjusted automotive free cash flow. GM's calculation of these non-GAAP measures may not be comparable to similarly titled measures of other companies due to potential differences between companies in the method of calculation. As a result, the use of these non-GAAP measures has limitations and should not be considered superior to, in isolation from, or as a substitute for, related U.S. GAAP measures.

These non-GAAP measures allow management and investors to view operating trends, perform analytical comparisons and benchmark performance between periods and among geographic regions to understand operating performance without regard to items we do not consider a component of our core operating performance. Furthermore, these non-GAAP measures allow investors the opportunity to measure and monitor our performance against our externally communicated targets and evaluate the investment decisions being made by management to improve ROIC-adjusted. Management uses these measures in its financial, investment and operational decision-making processes, for internal reporting and as part of its forecasting and budgeting processes. Further, our Board of Directors uses certain of these and other measures as key metrics to determine management performance under our performance-based compensation plans. For these reasons we believe these non-GAAP measures are useful for our investors.

EBIT-adjusted EBIT-adjusted is presented net of noncontrolling interests and is used by management and can be used by investors to review our consolidated operating results because it excludes automotive interest income, automotive interest expense and income taxes as well as certain additional adjustments that are not considered part of our core operations. Examples of adjustments to EBIT include but are not limited to impairment charges on long-lived assets and other exit costs resulting from strategic shifts in our operations or discrete market and business conditions; costs arising from the ignition switch recall and related legal matters; and certain currency devaluations associated with hyperinflationary economies. For EBIT-adjusted and our other non-GAAP measures, once we have made an adjustment in the current period for an item, we will also adjust the related non-GAAP measure in any future periods in which there is an impact from the item. Our corresponding measure for our GM Financial segment is EBT-adjusted.

EPS-diluted-adjusted EPS-diluted-adjusted is used by management and can be used by investors to review our consolidated diluted EPS results on a consistent basis. EPS-diluted-adjusted is calculated as net income attributable to common stockholders-diluted less income (loss) from discontinued operations on an after-tax basis, adjustments noted above for EBIT-adjusted and certain income tax adjustments divided by weighted-average common shares outstanding-diluted. Examples of income tax adjustments include the establishment or reversal of significant deferred tax asset valuation allowances.

ETR-adjusted ETR-adjusted is used by management and can be used by investors to review the consolidated effective tax rate for our core operations on a consistent basis. ETR-adjusted is calculated as Income tax expense less the income tax related to the adjustments noted above for EBIT-adjusted and the income tax adjustments noted above for EPS-diluted-adjusted divided by Income before income taxes less adjustments. When we provide an expected adjusted effective tax rate, we do not provide an expected effective tax rate because the U.S. GAAP measure may include significant adjustments that are difficult to predict.

ROIC-adjusted ROIC-adjusted is used by management and can be used by investors to review our investment and capital allocation decisions. We define ROIC-adjusted as EBIT-adjusted for the trailing four quarters divided by ROIC-adjusted average net assets, which is considered to be the average equity balances adjusted for average automotive debt and interest liabilities, exclusive of finance leases; average automotive net pension and other postretirement benefits (OPEB) liabilities; and average automotive net income tax assets during the same period.

Adjusted automotive free cash flow Adjusted automotive free cash flow is used by management and can be used by investors to review the liquidity of our automotive operations and to measure and monitor our performance against our capital allocation program and evaluate our automotive liquidity against the substantial cash requirements of our automotive operations. We measure adjusted automotive free cash flow as automotive operating cash flow from continuing operations less capital expenditures adjusted for management actions. Management actions can include voluntary events such as discretionary contributions to employee benefit plans or nonrecurring specific events such as a closure of a facility that are considered special for EBIT-adjusted purposes.

GM Financial amounts represent earnings before income taxes-adjusted.

GM's automotive interest income and interest expense, Maven, legacy costs from the Opel and Vauxhall businesses and certain other assets in Europe (the Opel/Vauxhall Business), which are primarily pension costs, corporate expenditures and certain nonsegment-specific revenues and expenses are recorded centrally in Corporate.

These adjustments were excluded because of a strategic decision to accelerate our transformation for the future to strengthen our core business, capitalize on the future of personal mobility and drive significant cost efficiencies. The adjustments primarily consist of supplier-related charges, pension curtailment and other charges in the nine months ended September 30, 2019 and accelerated depreciation, supplier-related charges and pension curtailment and other charges in the nine months ended September 30, 2019.

These adjustments were excluded because of the unique events associated with decisions rendered by the Superior Judicial Court of Brazil resulting in retrospective recoveries of indirect taxes.

This adjustment was excluded because of a strategic decision to rationalize our core operations by exiting or significantly reducing our presence in various international markets to focus resources on opportunities expected to deliver higher returns. The adjustment primarily consists of employee separation charges and asset impairments in Korea.

This adjustment was excluded because of the unique events associated with the ignition switch recall, which included various investigations, inquiries and complaints from constituents. Income tax expense includes an adjustment of \$157 million as a result of a tax change in the three and nine months ended September 30, 2018 related to U.S. tax reform.

Net of Net loss attributable to noncontrolling interests.

Represents the results of the Opel/Vauxhall Business and our European financing subsidiaries and branches (the Fincos, and together with the Opel/Vauxhall Business, the European Business).

Refer to the reconciliation of segment profit (loss) to Net income attributable to stockholders under U.S. GAAP for adjustment details. Net income attributable to noncontrolling interests included for these adjustments is insignificant in the three and nine months ended September 30, 2019 and \$41 million in the nine months ended September 30, 2018. The tax effect of each adjustment is determined based on the tax laws and valuation allowance status of the jurisdiction to which the adjustment relates.

Refer to the reconciliation of diluted earnings per common share under U.S. GAAP to EPS-diluted-adjusted within the previous section for adjustment details.

We define return on equity (ROE) as Net income (loss) attributable to stockholders for the trailing four quarters divided by average equity for the same period. Management uses average equity to provide comparable amounts in the calculation of ROE. The following table summarizes the calculation of ROE (dollars in billions):

	<u> </u>	Four Quarters Ended								
		September 30, 2019		September 30, 2018						
Net income (loss) attributable to stockholders	\$	9.0	\$	0.8						
Average equity(a)	\$	42.8	\$	36.3						
ROE		20.9%		2.3%						

(a) Includes equity of noncontrolling interests where the corresponding earnings (loss) are included in Net income (loss) attributable to stockholders.

The following table summarizes the calculation of ROIC-adjusted (dollars in billions):

		Four Quarters Ended									
	Septem	ber 30, 2019	September 30, 2018								
EBIT-adjusted(a)	\$	11.1	\$	12.0							
Average equity(b)	\$	42.8	\$	36.3							
Add: Average automotive debt and interest liabilities (excluding finance leases)		14.8		14.2							
Add: Average automotive net pension & OPEB liability		16.5		19.1							
Less: Average automotive and other net income tax asset		(23.3)		(22.5)							
ROIC-adjusted average net assets	\$	50.8	\$	47.1							
ROIC-adjusted	'	21.9%		25.6%							

Refer to the reconciliation of Net income (loss) attributable to stockholders under U.S. GAAP to EBIT-adjusted.

Includes equity of noncontrolling interests where the corresponding earnings (loss) are included in EBIT-adjusted.

The following table reconciles Net automotive cash provided by operating activities from continuing operations under U.S. GAAP to adjusted automotive free cash flow (dollars in millions):

		Three Mo	nths E	Ended		Nine Mon	iths En	Ended

⁽a) Includes Automotive China equity income of \$282 million and \$485 million in the three months ended September 30, 2019 and 2018 and \$893 million and \$1.7 billion in the nine months ended September 30, 2019 and 2018.

Vehicle Sales

GM presents both wholesale and total vehicle sales data to assist in the analysis of our revenue and our market share. Cuba, Iran, North Korea, Sudan and Syria are subject to broad economic sanctions. Accordingly these countries are excluded from industry sales data and the corresponding calculation of GM's market share.

Wholesale vehicle sales data consists of sales to GM's dealers and distributors as well as sales to the U.S. Government and excludes vehicles sold by our joint ventures. Wholesale vehicle sales data correlates to GM's revenue recognized from the sale of vehicles, which is the largest component of Automotive net sales and revenue. In the nine months ended September 30, 2019, 33.5% of our wholesale vehicle sales volume was generated outside the U.S. The following table summarizes wholesale vehicle sales by automotive segment (vehicles in thousands):

	Three Mor	nths Ended	Nine Mon	ths Ended
	September 30, 2019	September 30, 2018	September 30, 2019	September 30, 2018
GMNA	801	843	2,530	2,659
GMI	232	289	727	836
Total	1,033	1,132	3,257	3,495

(Unaudited)

Total vehicle sales data represents: (1) retail sales (i.e., sales to consumers who purchase new vehicles from dealers or distributors); (2) fleet sales, such as sales to large and small businesses, governments, and daily rental car companies; and (3) vehicles used by dealers in their businesses, including courtesy transportation vehicles. Total vehicle sales data includes all sales by joint ventures on a total vehicle basis, not based on our percentage ownership interest in the joint venture. Certain joint venture agreements in China allow for the contractual right to report vehicle sales of non-GM trademarked vehicles by those joint ventures, which are included in the total vehicle sales we report for China. While total vehicle sales data does not correlate directly to the revenue GM recognizes during a particular period, we believe it is indicative of the underlying demand for GM vehicles. Total vehicle sales data represents management's good faith estimate based on sales reported by GM's dealers, distributors, and joint ventures, commercially available data sources such as registration and insurance data, and internal estimates and forecasts when other data is not available.

The following table summarizes total vehicle sales by geographic region (vehicles in thousands):

Basic and Diluted Earnings per Share

(Unaudited)

The following table summarizes basic and diluted earnings (loss) per share (in millions, except per share amounts):

	Three Mor	nths E	nded		Nine Mor	iths E	nded
	September 30, 2019		September 30, 2018	_	September 30, 2019		September 30, 2018
Basic earnings per share							
Income from continuing operations(a)	\$ 2,351	\$	2,534	\$	6,926	\$	6,040
Less: cumulative dividends on subsidiary preferred stock	 (38)		(31)		(113)		(60)
Income from continuing operations attributable to common stockholders	2,313		2,503		6,813		5,980
Loss from discontinued operations, net of tax	 						70
Net income attributable to common stockholders	\$ 2,313	\$	2,503	\$	6,813	\$	5,910
Weighted-average common shares outstanding	1,428		1,412		1,422		1,410
Basic earnings per common share – continuing operations	\$ 1.62	\$	1.77	\$	4.79	\$	4.24
Basic loss per common share – discontinued operations	\$ _	\$	_	\$	_	\$	0.05
Basic earnings per common share	\$ 1.62	\$	1.77	\$	4.79	\$	4.19
Diluted earnings per share							
Income from continuing operations attributable to common stockholders – diluted(a)	\$ 2,313	\$	2,503	\$	6,813	\$	5,980
Loss from discontinued operations, net of tax – diluted	\$ _	\$	_	\$	_	\$	70
Net income attributable to common stockholders – diluted	\$ 2,313	\$	2,503	\$	6,813	\$	5,910
Weighted-average common shares outstanding – diluted	1,442		1,431		1,439		1,431
Diluted earnings per common share – continuing operations	\$ 1.60	\$	1.75	\$	4.74	\$	4.18
Diluted loss per common share – discontinued operations	\$ _	\$	_	\$	_	\$	0.05
Diluted earnings per common share	\$ 1.60	\$	1.75	\$	4.74	\$	4.13
Potentially dilutive securities(b)	7		4		7		4

⁽a) Net of Net loss attributable to noncontrolling interests.
(b) Net of net loss attributable to noncontrolling interests.
Potentially dilutive securities attributable to outstanding stock options and Restricted Stock Units were excluded from the computation of diluted EPS because the securities would have had an antidilutive effect.
