"GM is off to a great start in 2023. We gained significant market share in the first quarter, pricing was strong, inventories are in very good shape, and we sold more than 20,000 EVs in a quarter for the first time. We’re leading in the fleet and commercial market, and all our brands have a lot of momentum heading into a busy season of new product launches."

STEVE CARLISLE
GM EXECUTIVE VICE PRESIDENT
AND PRESIDENT, NORTH AMERICA

2023: Breakout Year for EVs

- GM is on track to build 50,000 EVs in North America through June and double that in the second half
  - Cadillac LYRIQ deliveries accelerating rapidly throughout 2023
  - Factory ZERO is building and shipping GMC HUMMER EV Pickup and new HUMMER EV SUV
  - Chevrolet Bolt EV and Bolt EUV production of 70,000 units to meet global demand
- Built more than 500 BrightDrop Zevo 600s at CAMI Assembly plant in Ontario, Canada in the first quarter
  - Added Purolator and Ryder as customers
- Chevrolet Silverado EV Work Truck deliveries begin in late spring
  - Orders from more than 340 fleet customers, a third of which are on the West Coast
Sales at Affordable Price Points Estimated to Exceed 1 Million

- Chevrolet, Buick and GMC estimate sales of more than 1 million vehicles starting below $30,000 MSRP in 2023-2024, led by new small SUVs
  - All-new 2024 Chevrolet Trax arriving in showrooms now, redesigned 2024 Chevrolet Trailblazer available in the fall; redesigned 2024 Buick Encore GX arrives in May
  - All three come standard with six active safety and driver assistance technologies such as Automatic Emergency Braking, Lane Keep Assist with Lane Departure Warning, and more
  - All five Chevrolet Trax trim levels start below $25,000 MSRP
    - Best-ever lease residual for GM in small SUV segment of 63%, 24 points above previous generation
- Vehicles priced about $30,000 MSRP or less are approximately 20% of the retail market
- According to Cox Automotive, more than half of industry sales were priced below $30,000 in 2012
- Many competitors have either scaled back their offerings or dropped affordable vehicles
Cautionary Note on Forward-Looking Statements

This communication and related comments by management may include “forward-looking statements” within the meaning of the U.S. federal securities laws. Forward-looking statements are any statements other than statements of historical fact and represent our current judgement about possible future events. In making these statements, we rely upon assumptions and analysis based on our experience and perception of historical trends, current conditions, and expected future developments, as well as other factors we consider appropriate under the circumstances. We believe these judgements are reasonable, but these statements are not guarantees of any future events or financial results, and our actual results may differ materially due to a variety of important factors, many of which are described in our most recent Annual Report on Form 10-K and our other filings with the U.S. Securities and Exchange Commission. We caution readers not to place undue reliance on forward-looking statements. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, future events, or other factors that affect the subject of these statements, except where we are expressly required to do so by law.

GM’s second quarter sales results will be reported on Wednesday, July 5.
